

Do you have a Screw Loose?

▶ The Twilight Zone...

It is well known that there exists an alternate dimension for which there are only two entrances. One is between the drum and the lining of the washing machine from where odd socks enter - never to be seen again.

The other is the space between your workbench and the floor - the screw which rolled off your cutting mat and should be directly below is nowhere to be seen. No amount of crawling around on the floor with a magnifying glass and a torch will ever find it, for it has entered the Twilight Zone!

▶ The Solution...

Because we know that selecting a new screw from a tube is markedly easier than securing passage to the alternate dimension, we have created the ultimate model railway screw set and then bundled this with a high-speed drill set to match! Keeping these in your rummage drawer should resolve most disappearances and keep your rolling stock... ..rolling!

▶ Introducing the Mega Set!

Of course, different installation requirements need different sizes of screw - so the Mega Set contains a wealth of sizes for just about any job!

8 vials of 60 pan-head screws

- 1mm diameter in 3, 5 and 8mm lengths
- 1.5mm diameter in 4, 6 and 8mm lengths
- 2mm diameter in 5 and 8mm lengths

Counter-Sunk

Pan-Head

8 vials of 60 counter-sunk screws

- 1mm diameter in 3, 5 and 8mm lengths
- 1.5mm diameter in 4, 6 and 8mm lengths
- 2mm diameter in 5 and 8mm lengths

20-pack of HSS titanium covered drill bits

- 0.3mm - 1.6mm

DCS-Mset contains all of the above for only £29.95

▶ The Perfect Companion...

Of course, a screw set is useless without a driver!

With three handles and 9 essential tips, the DCT-SND.12 screw and nut driver set is a must-have tool for every modeller.

The Handles

Made from tough alloy and anodised to prevent corrosion.

Rotating palm-pad and high-grip rings.

The Tips

Chrome-Vanadium magnetic, hardened tips in 9 sizes:

(-) 1.5mm, 2mm, 2.5mm

(+) PH00, PH0, PH1

NUT 2mm, 3mm, 5mm

Why three handles?

You'll quickly find the three tips you use most regularly. Having these already in the handles will make tool selection much easier and the neo-magnet in the handle will hold the tip firmly in place for as long as you need it.

DCT-SND.12 contains all of the above for only £24.95

Did you enjoy the contents - please let us know.

Don't be shy: We invite you to email us and discuss any changes you might like to see and welcome ideas for any "style" changes or additions we could consider to make more interesting reading.

Of course, if you have a specific subject that you would like us to cover, we will listen. Please email us at web@dcccconcepts.com and we will see what we can do.

Until then, thank you for sharing your valuable hobby time with us.
