

► The Golden Age of Rail Travel

The ultimate in luxury travel across the UK was - and still is - the Pullman. Plush interiors, silky smooth ride, luxurious seating and all with food and service rarely seen in the most expensive hotels.

► What's on Offer?

To best depict the absolute luxury of these coaches, it is important that those white-covered tables and lamps look just right. So what have Hornby and Bachmann produced?

Here is Hornby's Pullman Carriage with illuminated table lamps.

The lamps are a little too conical and their tables are white plastic blocks.

Here is Bachmann's Pullman Carriage with illuminated table lamps.

The table lamps look plastic and have no lampshade. Again, the tables are plain white blocks and there is no detail.

➤ Achieve Pullman Perfection with DCCconcepts!

Add a touch of luxury to your fleet by upgrading your Pullman Carriages using DCCconcepts Working Table Lamps!

Here we see an upgraded carriage—notice the height of the table in the window, the high level of detail on the lampshades and the pool of light on the table. The colour of the light from the lamp has also been carefully matched with the prototype - giving a superb sense of realism.

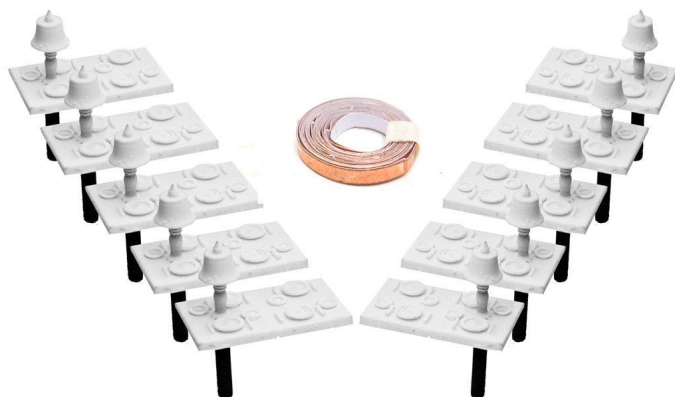

Compare the two windows above - a simple "before and after" showing what a huge difference the added detail can make! Note the place settings on the table.

➡ Where do I get the Working Table Lamps?

DCCconcepts Working Table Lamps are available direct from DCCconcepts online or from one of our Specialist Dealers - find one near you [here](#).

The pack includes 10 tables with place settings and working table lamps. These are scored on the underside so that they can be used as a 2-seat or a 4-seat table setting.

Also in the pack is some copper tape and various resistors so you can select the brightness of the lamps in your carriage.

Full installation instructions are also available [here](#).
