

### **Need a new soldering iron?**

A good quality soldering iron is one of the most essential tools in your model railway toolbox. Whether it be installing a decoder, attaching dropper wires, building a brass kit or simply joining two wires together - the soldering iron is right at the heart of everything!

So, for those of you who have asked Santa for a new iron for Christmas, we have the perfect solution!

Our [DCS-AT689A Soldering Station Complete Kit](#) comes with everything you need for your workbench - all in one box! Plus we have a full range of accessories which will help to make every soldering job smooth and simple!

**Only £79.95**  
including VAT!

(TSSP £96.80)

 **BUY NOW**

### **What's in the Soldering Kit?**

The full kit contains everything you need to get started:

- DCS-AT689A 65 Watt Soldering Station with Integrated Iron Stand
- Solder Stand with Cleaning Sponge
- Pack of [179° Sapphire Solder](#) (Super Versatile)
- Bottle of [Sapphire No-Clean Flux](#)
- Additional [2mm "T2C" Soldering Iron Tip](#)

### Why choose the DCS-AT689A?

The [DCS-AT689A](#) is a very good choice for those doing almost anything on the workbench, from tiny soldering jobs on DCC decoders to general circuit work, re-wiring of locomotives or building brass kits. With a reasonable footprint that does not take up too much bench space and a silicon lead on the iron to make it light in the hand, it also has more than enough power to keep your solder joints quick and cool. The [DCS-AT689A](#) also has simple to use controls with very stable temperature control. Our testing showed it has fast turn-on heating and very good heat recovery for larger things too. Out of the box it has a standard small conical tip for finer wiring on PCBs and we have chosen to add a very versatile [T2C](#) tip which has an excellent profile for track use, wiring and all general hobby soldering (we prefer this tip type for many soldering jobs).

### What other accessories are available?

Our [range of soldering irons](#) are suitable for use in the UK, however we have a wide range of soldering accessories and essentials to suit every workbench! Click the graphics below for more information:

## Want some hints?

DCCconcepts teamed up with Studio Scotland to make this "Quick Tip" video on how to solder to track. It's a fantastic reference for those who are "nervous" solderers!

We are delighted to confirm that we will be attending Model Rail Scotland in 2022! We have an exciting new exhibition stand which we are really looking forward to showing off at the event! See you there!

## DCCconcepts Dealer Network

It's really important to support your local model shop whenever you can - so remember, you can buy DCCconcepts products direct from us on [www.dccconcepts.com](http://www.dccconcepts.com) - or you can order from any of our dealers. Our dealer network is always growing - find out if there is a dealer near you by clicking the globe below!

## DCCconcepts Vouchers

The perfect gift for any modeller! We have a **huge** range of electronics, accessories and essentials both on our website and at our shop here in Settle.

If you want to avoid another Flying Scotsman mug or “Book of Trains”, why not ask for a DCCconcepts [Gift Voucher](#) this year? Available in any multiple of £10, you can order over the phone with us or online by clicking the voucher image above. Worldwide postage of the voucher is free and you’ll also receive a beautiful print of a painting by John Harrison from the last days of steam on the Settle-Carlisle line.

Remember to check your billing and shipping address, as well as giving the name and any message you want on your voucher in the “Order Notes” box at checkout.

**If you want to know more - just contact us. We are here 6 days a week and will be happy to take your calls any day between 10am and 5pm. You can also find us on Facebook, YouTube and via email to [salesuk@dccconcepts.com](mailto:salesuk@dccconcepts.com) - so wherever you are, we are only a few moments away!**

**Best wishes from all of us here at DCCconcepts**

**Richard Johnson**

Did you enjoy the contents—please let us know.

Don’t be shy: We invite you to email us and discuss any changes you might like to see and welcome ideas for any “style” changes or additions we could consider to make more interesting reading.

Of course, if you have a specific subject that you would like us to cover, we will listen. Please email us at [web@dccconcepts.com](mailto:web@dccconcepts.com) and we will see what we can do.

Until then, thank you for sharing your valuable hobby time with us.
